EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Charles E. Wands on November 9, 2004.

The application has been amended as follows:

The title of the invention has been changed to –Sample-and-hold phase shifter control voltage distribution in a phased array utilizing voltage-controlled phase shift devices--.

In the claims:

In claim 1, lines 13 and 17, after "voltage-controlled", --analog-- has been entered;

In claim 2, line 2, after "respective", --voltage-controlled—has been entered;
In claim 4, line 7, after "voltage-controlled", --analog-- has been entered;
In claims 5 and 6, line 2, after "voltage-controlled", --analog-- has been entered;
In claim 7, line 8, "proportional" has been replaced with -controlled—for consistency in terminology;

Lines 18 and 24, after "plurality of", --analog—has been entered;
In claim 8, line 2, "proportional" has been replaced with –controlled—for consistency in terminology;

Art Unit: 2817

In claim 10, line 7, after "plurality of", --analog—has been entered; and In claims 11 and 12, line 1, after "said", --analog—has been entered.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: Collier et al. (US '166) discloses a voltage-controlled phase shifter (figs. 1 and 2) with a variable voltage control switches (col. 6, lines 4-12), however, Collier et al. does not show "a sample-and-hold switching network, coupled between said analogy voltage supply unit and said voltage control inputs of said plurality of voltage-controlled analog phase shift elements, and being operative to selectively coupled different analog voltages produced by said analog voltage supply unit to said voltage control inputs of any of said plurality of voltage-controlled analog phase shift elements" as recited in claim 1, lines 11-18. Claim 8, steps (c) and (d) also recite the same limitation.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Seungsook Ham whose telephone number is (571) 272-2405. The examiner can normally be reached on Monday-Thursday, 8:00AM-5:00PM.
